National Library of Medicine

HIV/AIDS Community Information Outreach Program (ACIOP) Mid-contract Report

The ACIOP mid-contract report is a summary of your contract activities during the period February 1 – May 31, 2021. The report consists of multiple choice and short answer questions in three categories.

Part 1: Questions related to your agency/organization.

Part 2: Project-specific questions.

Part 3: Questions related to the four information access categories.

Please only complete the answers in this section for the Information Access Category(ies) in which you were contracted to provide services. Answers can be saved by completing a page and hitting the "next" button. Return to complete the report during the open time-period. Please make sure the responses are clear and succinct. The reports will be due June 15, 2021. Awardees may include information from the mid-contract report to complete the final report. If you have any questions, please contact the program manager Kelli Bursey at Kelli.Bursey@orau.org.

Agency Questions

What is the Organization Name?

Who is the project lead (Name & Title)?

Name and title of person completing this report.

Project Specific

Please list goal(s), measurable objectives, and key accomplishments you are addressing in your ACIO project during this reporting period?

Select the appropriate Information Access Category(ies) for the above listed service(s) *

Select all that apply.

- Information Retrieval
- Skills Development
- Resource Development and Dissemination
- PrEP Navigator Resource Development and Dissemination

Select the NIH/HHS resource(s) utilized for this service. Select all that apply.

- HIVinfo.nih.gov
- Clinicalinfo.hiv.gov
- MedlinePlus®
- MedlinePlus®-Espanol
- PubMed®/MEDLINE®
- Clinicaltrials.gov
- Other NIH/HHS HIV/AIDS Resource(s) (Please Specify)

How were NIH/HHS resources incorporated into the service(s)?

How were the above service(s) promoted? (Please attach copies of all promotional materials developed AND all publicity received such as video clips from TV news reports, articles in newspapers or newsletters, photographs, etc.)

Please discuss the quantity and quality of service(s) provided to the intended audience(s).

Were there any barriers/challenges to providing the service(s)? If so, please discuss.

Information Access Category #1: Information Retrieval

How often did the intended audience(s) retrieve information?

In what ways did the intended audience(s) access information via computers, Internet or mobile devices?

What HIV/AIDS information resources (i.e. HIVinfo.nih.gov, MedlinePlus) did the intended audience(s) access and how often? (Please provide metrics information if any form of social media was used or users accessed NIH/HHS resources from website)

Information Access Category #2: Skills Development

What types of trainings were developed or implemented during this reporting period?

What NIH/HHS HIV/AIDS resources were highlighted in the training?

Who were the intended training audience(s)?

How many people were trained? (attendance/completion)

Were participants satisfied with the trainings? (Please provide data from pre-post tests, and follow-up evaluation assessment tools used in trainings)

What were the training outcomes and/or skills developed? (Please provide data from pre-post tests, and follow-up evaluation assessment tools used in trainings)

How will the intended audience(s) utilize the HIV/AIDS information?

Information Access Category #3: Resource Development and Dissemination

What types of resource materials have been developed? Please include any resource developed using NIH/HHS resources or developed to promote NIH/HHS resources.

How will the resource materials be utilized/sustained/maintained/updated?

Was hardware/software purchased to develop resource material(s)? If so, what kind and how was it used?

Were consultants/contractual relationships used to develop resource material? If so, include the organization and the service they provided.

Information Access Category #4: PrEP Navigator Resource Development and Dissemination

What types of PrEP Navigator resources (health education or informational materials) have been developed? Please include any PrEP resource developed using NIH/HHS resources or developed to promote NIH/HHS resources.

How will the resource materials be utilized/sustained/maintained/updated?

Was hardware/software purchased to develop resource material(s)? If so, what kind and how was it used?

Were consultants/contractual relationships used to develop resource material? If so, include the organization and the service they provided.
